# Five-M company Mission

***"developing a sustainable, people focused business".***

“Our aim for the future is to deliver the best service quality that will generates lasting relationships with new and existing client”

- ▶ To provide accurate services at reasonable cost, we are committed to environmentally responsible operations; including using natural resources wisely and considering the overall impact on the environment.
- ▶ Practices are incorporated by identifying and implementing techniques and practices that emphasize the environmental management hierarchy of pollution prevention (source reduction), reuse, recycling, treatment, and environmentally safe disposal.

## Five-M company Vision

- ▶ Five-M consultancy is a responsibly managed frame that aspires to exceed market expectations across all sustainability issues and go beyond legal compliance to proactively reduce our environmental impacts. Our goals are to reduce our overall carbon footprint by embedding environmental controls and practices into the daily management of the firm and thereby encourage positive behavior from our staff to achieve a greener culture.
- ▶ Our environmental policy, outlines our key environmental impacts, targets and commitments. It is endorsed at the highest level, personally signed by our Managing Director, and will be reviewed and amended on an annual basis to ensure that we continually improve.

# Policy Statement

***“From Just collection to Environmental protection”***

- ▶ Our policy is to provide a service /product, satisfies our customers’ requirements, and complies with related international and local standards, codes, conventions, resolutions, laws and rules of occupational health, safety, and environment.
- ▶ We understand that; the compliance with ISO 9001:2008, ISO 14001:2004 & OHSAS 18001:2007 requirements, which supporting our mission is not the end; but the beginning of the diligence.
